

## NATIONAL ROADSHOW

The IDA is hosting a national roadshow to inform our Dealer Members of critical changes in the industry. This is an opportunity for us to share good news on the way forward. We also welcome the National Motor Finance Association to our line-up, who will bring a simplified solution regarding the FICA process.

Do not miss this chance to learn more about the key trends that will affect your business.

Our area-specific and detailed invitations will follow closer to each event. *This business breakfast and information sharing* invitation is extended to you as the owner and your 2IC.
